I am a researcher primarily interested in the neurocognitive bases of human affect and sexuality.

About me

Researcher in cognitive neuroscience applied to human sexual behavior. Psychologist, MSc in Basic and Applied Neurosciences, and PhD in Neurosciences. My research integrates cognitive neuroscience, evolutionary psychology, and public health to understand how the brain processes sexually relevant information and how these mechanisms shape sexual attraction, mate preferences, sexual response, and sexual behavior. Using experimental methods—particularly eye tracking—I investigate both normative and atypical sexual interests, with the goal of contributing to both basic science and evidence-based strategies to promote sexual health and prevent child sexual abuse and exploitation.

I am an Associate Professor at the [Faculty of Psychology](#) at [Universidad El Bosque](#) and an active associate researcher within the [CODEC: Cognitive and Behavioural Sciences](#) Research Group (classified **A1** by MinCiencias). I lead the [SexCog: Sexuality and Affectivity from a Neurocognitive Perspective](#) undergraduate research group and have led and co-led nationally and internationally funded research projects using experimental approaches in cognitive neuroscience. I have completed two competitive postdoctoral research fellowships funded by [MinCiencias](#).

Over the past 15 years, I have combined research and university teaching, contributing to undergraduate and graduate education in the neurobiological and cognitive bases of human behavior while supervising undergraduate, master's, and doctoral research projects.

Skills

Research Methods

Eye tracking • Experimental and observational research design

• Survey research • Psychometric assessment • Psychophysiological measures (HRV)

Data Analysis

R • Generalized linear models • Mixed-effects models • Quantitative data analysis • Data visualization

Research Software

RStudio • Tobii Pro Lab • Qualtrics • Psychomorph • WebMorphR

Languages

Spanish (native) • English

Research

Research Areas

Cognitive neuroscience • Human sexual behavior • Sexual attraction • Eye tracking & visual attention

Prevention of child sexual abuse & online child sexual exploitation

Primary Research Methods

Eye tracking • Experimental cognitive neuroscience • Free-viewing & forced-choice paradigms

Psychometric assessment • Psychophysiological measures • Quantitative data analysis

Education

Universidad de Valencia

Valencia, España

PHD - NEUROSCIENCES

2018

- Research project: [Preferencias sexuales típicas y atípicas según sexo y edad de los estímulos](#) utilidad de la técnica de rastreo ocular
- Supervisors: Prof. Alicia Salvador, y Prof. Juan David Leongómez

Universidad de Valencia

Valencia, España

MASTER'S DEGREE IN BASIC AND APPLIED NEUROSCIENCES

2012

- Research product: [Effects of assisted training with neurofeedback on EEG measures, executive function and mood in a healthy sample](#)
- Supervisor: Prof. Marien Gadea

- Research product: *Diseño del cuestionario de creencias referidas al consumo de alcohol para jóvenes universitarios*

Conference Presentations, Posters and Workshops

Vásquez-Amézquita, M. (2026, June). *Prevention and Response to Sexual Offending against Children in Colombia: A Binational Partnership*. Symposium organized at the Canadian Psychological Association (CPA) Annual Convention, Montreal, Canada. Co-author and presenter in two of the three symposium talks: *Colombian Professionals' Perspectives on Risk and Prevention of Sexual Exploitation of Children in Travel and Tourism* (co-presented with Skye Stephens; additional author: Alexa Padilla Rodríguez) and *Pedophilic Sexual Interests Among Men Convicted of Offenses Against Minors in Colombia* (co-presented with Alexa Liliana Rodríguez Padilla).

Vásquez-Amézquita, M. (2025, Julio). *Behavior through the gaze: Evolutionary perspectives applying eye tracking*. Workshop at the Summer Institute of the International Society for Human Ethology (ISHE), Valparaíso, Chile.

Vásquez-Amézquita, M. (2024, November). *Automatic negative thoughts towards sexual activity and their association with attention to erotic sexual stimuli: a study using eye-tracking*. Oral Communication at the XXI Latin American Congress on Sexology and Sex Education (Flasses), Lima, Peru.

Vásquez-Amézquita, M. (2024, November). *Colombian women's resource scarcity is associated with more masculinized partner choices and a higher risk of violence against women?*. Oral Communication at the XXI Latin American Congress on Sexology and Sex Education (Flasses), Lima, Peru.

Vásquez-Amézquita, M. (2024, April). *Human sexual preferences: Experimental methods and eye tracking*. Invited presentation at the Webinar organized by Maestría en Sexualidad y Relaciones Contemporáneas (Universidad de la Costa), Barranquilla, Colombia.

Vásquez-Amézquita, M. (2023, October). *Deciphering pedophilia, a neurocognitive perspective*. Invited speaker at the Conversatory on Trafficking in Persons, Child Trafficking and Pedophilia (Pontificia Universidad Javeriana), Bogotá, Colombia.

Vásquez-Amézquita, M. (2022, October). *Trait sexual desire as a predictor of subjective sexual arousal to erotic sexual stimuli in cisgender men and women*. Oral Communication at the XX Latin American Congress on Sexology and Sex Education (Flasses), Valencia, España.

Vásquez-Amézquita, M. (2021, June). *Eye-Tracking technology applied to sexual dysfunctions and deviations, such as pedophilia*. Invited speaker at the Online Congress of Technologies Applied to Psychology. (AEPSIS - Asociación Española de Psicología Sanitaria), Valencia, España.

Vásquez-Amézquita, M. (2020, October). *Contributions of eye tracking in the identification of deviant sexual preferences such as pedophilia*. Invited speaker at the II International Congress of Psychology Online (Conexiones Consultorías, Universidad El Bosque y ASCO-FAPSI), Bogotá, Colombia.

Vásquez-Amézquita, M. (2020, September 17). *Utility of Eye-Tracking in Identifying Sexual Preferences in General Population and Child Sex Offenders*. Invited speaker at the IV National Congress of Legal Psychology (Universidad Católica de Colombia), Bogotá, Colombia.

Vásquez-Amézquita, M. (2020, September 4). *What does eye gaze say about deviant sexual behaviors such as pedophilia and child sexual abuse? Findings from a study using eye tracking*. Invited speaker at the 3rd Symposium on Neuroscience, Cognition and Society (Pontificia Universidad Javeriana), Bogotá, Colombia.

Vásquez-Amézquita, M. (2020, March). *Contributions of cognitive neuroscience in the identification of deviant atypical sexual preferences such as pedophilia*. Invited speaker at the Plenary Session at CSCN – Center for Social and Cognitive Neuroscience (Universidad Adolfo Ibáñez), Santiago de Chile y Viña del Mar.

Vásquez-Amézquita, M. (2019, September). *Neurodevelopmental factors contributing to the development of pedophilia*. Invited speaker at I Symposium on Child Neuropsychology and Applied Neurosciences (Cooperación Delphy Colombia), Ibagué, Colombia.

Vásquez-Amézquita, M. (2018, September). *Visual attention Pattern on immature stimuli in child sexual abusers compared to other offenders and the general community: an eye-tracking study*. Invited speaker at the 4th Congresso Ordem dos Psicólogos Portugueses (Ordem Dos Psicólogos Portugueses), Braga, Portugal.
